

## *Preparing high resolution images for web from PowerPoint slides*

Revised on January 20, 2016

### ***Step 1: Save as a high resolution PDF file***

---

1. In PowerPoint, open your slide presentation, and then open the slide that you want to prepare a high resolution image.
2. Open the **File** menu, click **Print**.
3. Print a slide as a high resolution PDF file with Adobe PDF Converter.

### ***Step 2: Save as a PNG file***

---

1. In Photoshop, open your PDF file.
2. Open the **File** menu, click **Save As**.
3. Choose **PNG** format, click **Save**, and click **Smallest** in PNG option.
